

"PHONY" RING FOR A BRIBE

Policeman Alleges that Youth He Arrested Offered Him a "Diamond Jewel," Which Proves to Be Glass, to Release Him.

Not only do the police say that Carmine Frisco, an eighteen-year-old boy of No. 14 Mulberry street, is a thief, but the policeman who arrested him says Frisco is the making of a franchise-grabber. Frisco is a hoodlum and a hoodlum in this he bases upon the fact that when he arrested the young man, Frisco said before the policeman's eyes a diamond ring, the stone of which weighed about four carats, and said: "Turn me loose and this is yours."

The policeman, Staubitz, who says he is not a judge of diamonds, refused the offer and marched Frisco to the Eldridge Street Station. There he charged him with burglary and endeavoring to bribe a policeman.

"Let's see the ring," said the Sergeant at the desk, and Frisco smiled and passed it over to him.

"Bribe a man with this?" said the Sergeant indignantly. "Why, you're a 'con' man, Staubitz. Do you know what that is? Well, it's a diamond ring. Frisco is a hoodlum and a hoodlum in this he bases upon the fact that when he arrested the young man, Frisco said before the policeman's eyes a diamond ring, the stone of which weighed about four carats, and said: 'Turn me loose and this is yours.'"

The policeman, Staubitz, who says he is not a judge of diamonds, refused the offer and marched Frisco to the Eldridge Street Station. There he charged him with burglary and endeavoring to bribe a policeman.

NO PENALTY FOR ENGLISH GAME IN CLOSED SEASON.

Jury Decides It Does Not Come Under Provisions of the Law Here.

A jury in the Supreme Court held today that pheasants, grouse and partridges imported from England and offered for sale during the closed season, do not come under the provisions of the law which provides a heavy penalty for selling or offering for sale all game birds, and many other wild birds during the prohibited term of the year.

The verdict was rendered in a suit brought by State Attorney-General Julius M. Mayer, on behalf of the people of the State of New York, against Auguste Siltz, the American member of an English house at No. 287 Washington, to recover about \$2,000 for having, on April 29, 1904, offered for sale fifty birds, consisting of English pheasants, English and German partridges, wild duck and some of the species of grouse known as blackcock.

The suit was instituted under the

SKIN DISEASES

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

ECZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In **TETTER** the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. **ACNE** makes its appearance on the face in the form of pimples and blackheads, and is particularly disagreeable because of its unsightly appearance, while **PSORIASIS**, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is **SALT RHEUM**. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp, diseasing the hair follicles and making the baldness permanent.

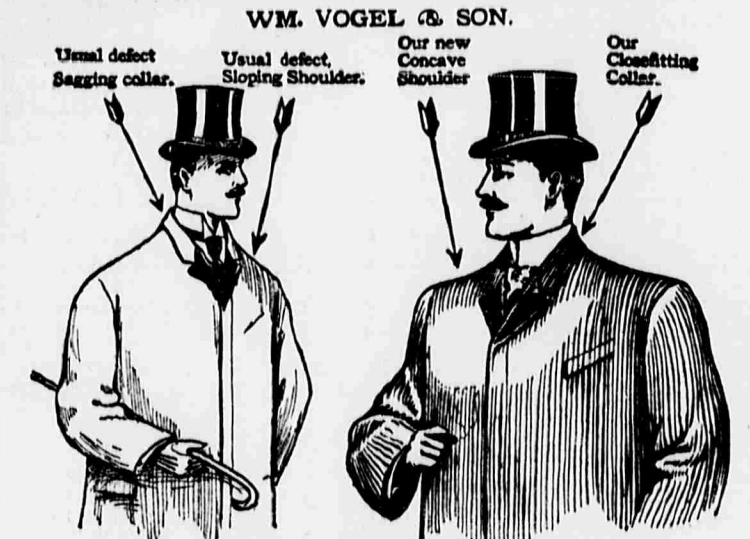

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either.

Forest Fish and Game law. Some years ago a suit was brought against the Bootman & Robinson Company, in which penalties were sought aggregating \$1,058.25, which were reduced to \$3,800, but on appeal to the Court of Appeals, it was held that the defendant corporation was not liable. In this case the birds were imported from Canada, and from States in the Union, and it was maintained by the defendant that they had been killed in the open season in the districts from which they came here.

DOES DYSPEPSIA OR INDIGESTION BOTHER YOU?
Do you know what it is to enjoy a good square meal? Even if you feel like it, dare you satisfy your desire?

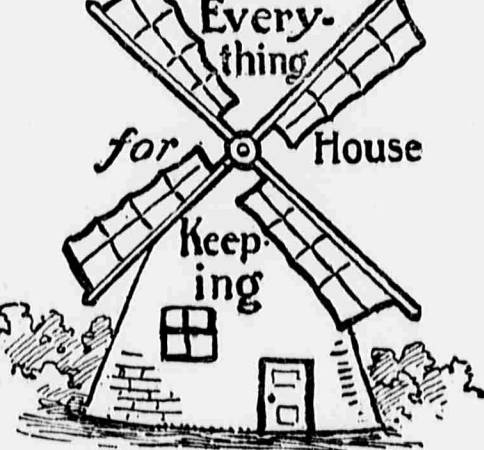

Digestion is one of the most complex functions of the human body, yet it is, too, the most simple. Digestion is simply the converting of food into a condition in which it can be added to the blood. When your system is overdone or run down, Keall's Dyspepsia Tablets, which are really a digestive treatment, readily set things right. First, the gastric juices increase secretion of gastric juices and saturate the food and stop fermentation and thus prevent the acid of the dyspepsia tablets. Digestion goes on naturally—this is the secret. The "Keall's" tablets are sold in every drug store, and can be had of any Keall's agent in New York, Brooklyn, and Jersey.

When Love Lane Was a Thoroughfare

BEFORE THE GREAT FORESTS of the West furnished to the Grand Rapids factories the wood from which the best furniture of to-day is made—when Love Lane stretched from Canal street to Twenty-first—the furniture house of Cowperthwait was founded in Chatham Square.

For neighbors then it had Fraunce's Tavern, some distance below, and the old Bull Head Tavern, almost at hand. The old Post Road led to it, and "Love Lane" led away toward the uptown sections which are now crowded with homes and apartment-houses.

It was then what it is to-day—the leading furniture house on Manhattan Island, and from its well-stocked store-rooms have been drawn the furnishings of thousands of homes in all the intervening generations.

The love of home is proverbial among New Yorkers. Every day van-loads of housefurnishings are taken from the two great establishments of Cowperthwait & Sons along the path of this old "Love Lane" to find their places in homes of refinement.

By following the policy of the founder of the house—by furnishing the very best furniture and housefurnishing goods that the world affords at the lowest prices consistent with quality—marking every article in plain figures that all customers may read—and by extending liberal credit, so that the burden is distributed over a considerable period, the business is kept as it will always remain—at the front
